IRON AND STEEL ENGINEER INDEX FOR 1939

Herewith is presented the index of all authors, papers, and discussions published in the IRON AND STEEL ENGINEER for the year 1939.

LIST OF AUTHORS

A

ALTENBURGER, C. L.—*Practical Aspects of Steel Making*, December, 1939, Page 17.

AUSTIN, J. B.—*Efficiency of the Blast Furnace Process*, April, 1939, Page 31.

B

BADLAM, STEPHEN—*Developments in Rolling Flat Steel Products in 1937-38*, January, 1939, Page 28.

BAKEWELL, D. C.—*Developments in Electro-Tinplating of Strip Steel*, December, 1939, Page 37.

BALLARD, L.—*Lubricants for Modern Continuous Rolling Mills*, February, 1939, Page 31.

BARRETT, J. C.—*Design and Operation of a Modern Blast Furnace*, February, 1939, Page 17.

BENNETT, H. G. R.—*A.I.S.E. Educational Committee Report*, November, 1939, Page 35.

BETZ, C. P. AND P. C. VETTER—*By-Product Coke Plant at Hanna Furnace Division, Great Lakes Steel Corporation*, June, 1939, Page GL-2.

BRANDT, E. C.—*Planned Maintenance and the Maintenance Budget*, April, 1939, Page 43.

BURNS, M. P. AND E. A. HAWK—*Modern Pit Design and Practice at Fairfield Works*, June, 1939, Page 32.

BURR, W. H.—*Developments in the Iron and Steel Industry During 1938*, January, 1939, Page 68.

C

CASTLE, A. J.—*Development of Cold Rolling Practice*, May, 1939, Page 26.

CLEMMITT, W. B. AND GORDON FOX—*By-Product Fuels in the Steel Industry*, November, 1939, Page 44.

CONWAY, MARTIN J., T. A. LEWIS, A. J. FISHER, AND S. F. MAGIS—*Symposium—Heating Rates of Steel for Various Operations*, March, 1939, Page 13.

D

DEANS, WILLIAM—*Protection of Branch Circuits for Auxiliary Motors*, June, 1939, Page 17.

DEUTSCH, L. W.—*Installing and Operating Grease Lubricating Systems*, July, 1939, Page 19.

E

ELLERTON, GEORGE, JR. AND F. A. FAVILLE—*Application of Heat Transfer Data to Furnace Walls and Roofs*, October, 1939, Page 60.

ESS, T. J.—*Republic Steel Corporation, Gulfsteel Division*, March, 1939, Page 52.

ESS, T. J. AND J. D. KELLY—*Richard Thomas and Company, Ltd., Installs First Wide Strip Mill in United Kingdom*, July, 1939, Page RT-1.

ESS, T. J. AND J. D. KELLY—*Tin Plate Production at the Tennessee Coal, Iron and Railroad Company*, March, 1939, Page T-1.

ESS, T. J.—*Youngstown Sheet & Tube Company Expands Seamless Capacity*, April, 1939, Page Y-1.

F

FAIRLESS, B. F.—*Today and Tomorrow*, November, 1939, Page 56.

FAVILLE, F. A. AND GEORGE ELLERTON, JR.—*Application of Heat Transfer Data to Furnace Walls and Roofs*, October, 1939, Page 60.

FISHER, A. J., S. F. MAGIS, MARTIN J. CONWAY, AND T. A. LEWIS—*Symposium—Heating Rates of Steel for Various Operations*, March, 1939, Page 13.

FLAGG, H. V.—*Steel Plant Fuel Accounting*, April, 1939, Page 21.

FOX, GORDON AND W. B. CLEMMITT—*By-Product Fuels in the Steel Industry*, November, 1939, Page 44.

G

GARRETT, W. W.—*History of the Birmingham Section, A. I. & S. E.*, February, 1939, Page 68.

GEUDER, R. A.—*Speed Control by Voltage Control*, July, 1939, Page 34.

GOULD, L. J.—*A Tentative Standard for Fits and Finishes in Maintenance Shops*, October, 1939, Page 48.

H

HART, CHARLES—*Known Iron Ore Reserves of the World and Their Significance*, May, 1939, Page 42.

HAWK, E. A. AND M. P. BURNS—*Modern Pit Design and Practice at Fairfield Works*, June, 1939, Page 32.

HORNE, H. F.—*Phenolic Plastic Applications in the Steel Industry*, September, 1939, Page 66.

HUGHES, R. M. AND WILLIAM J. REES—*Construction of the New 1000 Ton Blast Furnace at Great Lakes Steel Corporation*, June, 1939, Page GL-18.

I

IVERSEN, LORENZ—*Design of Modern Slabbing-Blooming Mills*, January, 1939, Page 20.

J

JOHNSON, CLARK—*Design and Lubrication of Gears and Pinions*, September, 1939, Page 28.

K

KELLY, J. D. AND T. J. ESS—*Richard Thomas and Company, Ltd., Installs First Wide Strip Mill in United Kingdom*, July, 1939, Page RT-1.

KELLY, J. D. AND T. J. ESS—*Tin Plate Production at the Tennessee Coal, Iron and Railroad Company*, March, 1939, Page T-1.

L

LEDING, M. J. AND T. R. RHEA—*Acceleration of Tandem Cold Strip Mills*—May, 1939, Page 30.

LEWIS, T. A., A. J. FISHER, S. F. MAGIS, AND MARTIN J. CONWAY—*Symposium—Heating Rates of Steel for Various Operations*, March, 1939, Page 13.

LYNN, C.—*Trends in Insulation Practice*, August, 1939, Page 40.

M

MAGIS, S. F., MARTIN J. CONWAY, T. A. LEWIS, AND A. J. FISHER—*Symposium—Heating Rates of Steel for Various Operations*, March, 1939, Page 13.

MAGRATH, J. G.—*Metal Spraying Process in Maintenance Work*, December, 1939, Page 22.

MANDY, W. H.—*Types of Lubricants Essential to Steel Mills*, August, 1939, Page 20.

MERRILL, E. R.—*Rehabilitation of a Battery of Vertical Flue Coke Ovens*, July, 1939, Page 27.

MILBURN, L. R.—*Report of Educational Program Committee, Detroit Section, A. I. & S. E.*, March, 1939, Page 26.

MOHLER, F.—*Gauge Control for Cold Strip Mills*, December, 1939, Page 44.

MORRISON, J. W.—*Electric Direct Resistance Treating of Wire*, December, 1939, Page 28.

MUNGER, H. P.—*Pickling of Strip Steel from the Metallurgical Point of View*, February, 1939, Page 58.

N

NEBLETT, H. W.—*Electrolytic Pickling of Strip Steel*, April, 1939, Page 12.

NELSON, D. C. AND J. RUSSELL POWELL—*Standardization of 440 Volt A-C. Power and Control Equipment*, April, 1939, Page 50.

NEWMAN, L. E.—*Superposed and Low Pressure Turbines for Steel Mills*, August, 1939, Page 54.

O

OBERHUBER, W. F.—*Maintenance Aids*, November, 1939, Page 28.

OHLSON, CARL—*Review of Developments in Seamless Tube Manufacture*, August, 1939, Page 14.

P

PEERY, W. A. AND W. B. SNYDER—*Performance of Blooming Mill Auxiliary Drives with Ward-Leonard Control*, March, 1939, Page 42.

PHIFER, J. J.—*Modern Wire Drawing Practice*, October, 1939, Page 26.

POWELL, J. RUSSELL AND D. C. NELSON—*Standardization of 440 Volt A-C. Power and Control Equipment*, April, 1939, Page 50.

R

REES, WILLIAM J. AND R. M. HUGHES—*Construction of the New 1000 Ton Blast Furnace at Great Lakes Steel Corporation*, June, 1939, Page GL-18.

RENTSCHLER, M. J.—*A New Process for Treating Waste from Steel Pickling Plants*, January, 1939, Page 52.

RHEA, T. R. AND M. J. LEDING—*Acceleration of Tandem Cold Strip Mills*, May, 1939, Page 30.

S

SCOTT, G. R.—*Evolution of Worm Gearing Culminating in the Cone Design*, May, 1939, Page 17.

SIEGER, M. P.—*Hot Rolling of Blooms and Slabs*, November, 1939, Page 20.

SLATER, J. H.—*New Furnace Follows Modern Trends*, January, 1939, Page 63.

SNYDER, W. B. AND W. A. PERRY—*Performance of Blooming Mill Auxiliary Drives with Ward-Leonard Control*, March, 1939, Page 42.

SULLIVAN, C. P.—*Engineering Design of Motor Rooms*, October, 1939, Page 32.

T

TOWNSEND, JAMES A.—*Hardness Testing of Light Gauge Sheet Steel by Scratch Resistance*, September, 1939, Page 22.

TRAVERS, H. A.—*Relay Protective Methods for Steel Mill Service*, November, 1939, Page 36.

U

URQUHART, J. E.—*Comments on Southern Blast Furnace Practice and Some of Its Peculiarities*, September, 1939, Page 72.

V

VETTER, P. C. AND C. P. BETZ—*By-Product Coke Plant at Hanna Furnace Division, Great Lakes Steel Corporation*, June, 1939, Page GL-2.

W

WALDORF, S. K.—*Recent Advances Toward Lightning Proof Transmission Lines*, February, 1939, Page 50.

WALTON, P. J.—*Lightning and Surge Voltage Protection for A-C. Rotating Machines*, February, 1939, Page 42.

WECKSTEIN, S. M.—*Application of Anti-Friction Bearings in Tube Mill Equipment*, August, 1939, Page 30.

WILCOX, H. L.—*Blast Furnace Skip and Top Direct Current Control*, July, 1939, Page 9.

WRIGHT, D. C.—*Frequency Relays and Neo-Time Acceleration*, May, 1939, Page 62.

LIST OF SUBJECTS

A

Abstracts of Papers to be Presented before the Annual Convention of A. I. & S. E.—September, 1939, Page 53.

Acceleration, Frequency Relays and Neo-Time—By D. C. WRIGHT, May, 1939, Page 62.

Acceleration of Tandem Cold Strip Mills—By T. R. RHEA AND M. J. LEDING, May, 1939, Page 30.

Accounting, Steel Plant Fuel—By H. V. FLAGG, April, 1939, Page 21.

Advances Toward Lightning Proof Transmission Lines, Recent—By S. K. WALDORF, February, 1939, Page 50.

Aids, Maintenance—By W. F. OBERHUBER, November, 1939, Page 28.

A-C. Power and Control Equipment, Standardization of 440 Volt—By D. C. NELSON AND J. RUSSELL POWELL, April, 1939, Page 50.

A-C. Rotating Machines, Lightning and Surge Voltage Protection for—By P. J. WALTON, February, 1939, Page 42.

American Cast Iron Pipe Company—March, 1939, Page 24.

Anti-Friction Bearings in Tube Mill Equipment, Application of—By S. M. WECKSTEIN, August, 1939, Page 30.

Application of Anti-Friction Bearings in Tube Mill Equipment—By S. M. WECKSTEIN, August, 1939, Page 30.

Application of Heat Transfer Data to Furnace Walls and Roofs—By F. A. FAVILLE AND GEORGE ELLERTON, JR., October, 1939, Page 60.

Applications in the Steel Industry, Phenolic Plastic—By H. F. HORNE, September, 1939, Page 66.

Aspects of Steel Making, Practical—By C. L. ALTENBURGER, December, 1939, Page 17.

Associate Members, New—April, 1939, Page 67.

A. I. & S. E. Annual Spring Conference, Birmingham, Alabama. Pictorial Review—April, 1939, Page 60.

A. I. S. E. District Section Chairmen, 1939-1940—October, 1939, Page 70

A. I. S. E. Educational Committee Report—By H. G. R. BENNETT, November, 1939, Page 35.

A. I. & S. E., History of the Birmingham Section—By W. W. GARRETT, February, 1939, Page 68.

A. I. & S. E., National Committees for 1939—January, 1939, Page 18.

A. I. & S. E. New Members—April, 1939, Page 65.

A. I. & S. E. New Members—June, 1939, Page 31.

A. I. S. E., New Members—October, 1939, Page 69.

A. I. & S. E., Report of Educational Program Committee, Detroit Section—By L. R. MILBURN, March, 1939, Page 26.

Auxiliary Drives with Ward-Leonard Control, Performance of Blooming Mill—By W. A. PERRY AND W. B. SNYDER, March, 1939, Page 42.

Auxiliary Motors, Protection of Branch Circuits for—By WILLIAM DEANS, June, 1939, Page 17.

B

Battery of Vertical Flue Coke Ovens, Rehabilitation of a—By E. R. MERRILL, July, 1939, Page 27.

Bearings in Tube Mill Equipment, Application of Anti-Friction—By S. M. WECKSTEIN, August, 1939, Page 30.

Birmingham Section, A. I. & S. E., History of the—By W. W. GARRETT, February, 1939, Page 68.

Blast Furnace at Great Lakes Steel Corporation, Construction of the New 1000 Ton—By R. M. HUGHES AND WILLIAM J. REES, June, 1939, Page GL-18.

Blast Furnace, Design and Operation of a Modern—By J. C. BARRETT, February, 1939, Page 17.

Blast Furnace Practice and Some of Its Peculiarities, Comments on Southern—By J. E. URQUHART, September, 1939, Page 72.

Blast Furnace Process, Efficiency of the—By J. B. AUSTIN, April, 1939, Page 31.

Blast Furnace Skip and Top Direct Current Control—By H. L. WILCOX, July, 1939, Page 9.

Blooming Mill Auxiliary Drives with Ward-Leonard Control, Performance of—By W. A. PERRY AND W. B. SNYDER, March, 1939, Page 42.

Blooms and Slabs, Hot Rolling of—By M. P. SIEGER, November, 1939, Page 20.

Branch Circuits for Auxiliary Motors, Protection of—By WILLIAM DEANS, June, 1939, Page 17.

Budget, Planned Maintenance and the Maintenance—By E. G. BRANDT, April, 1939, Page 43.

By-Product Coke Plant at Hanna Furnace Division, Great Lakes Steel Corporation—By C. P. BETZ AND P. C. VETTER, June, 1939, Page GL-2.

By-Product Fuels in the Steel Industry—By GORDON FOX AND W. B. CLEMMITT, November, 1939, Page 44.

C

Carnegie-Illinois Steel Corporation—"The Most Modern Mill in the World," Irvin Works—September, 1939, Page C-I 1.

Chairmen, 1939-1940, A. I. S. E. District Section—October, 1939, Page 70.

Circuits for Auxiliary Motors, Protection of Branch—By WILLIAM DEANS, June, 1939, Page 17.

Cleveland Sections Meet in Youngstown, Pittsburgh—May, 1939, Page 10.

Coke Ovens, Rehabilitation of a Battery of Vertical Flue—By E. R. MERRILL, July, 1939, Page 27.

Coke Plant at Hanna Furnace Division, Great Lakes Steel Corporation, By-Product—By C. P. BETZ AND P. C. VETTER, June, 1939, Page GL-2.

Cold Rolling Practice, Development of—By A. J. Castle, May, 1939, Page 26.
Cold Strip Mill, Acceleration of Tandem—By T. R. Rhea and M. J. Leding, May, 1939, Page 30.
Cold Strip Mills, Gauge Control for—By F. Mohler, December, 1939, Page 44.
Comments on Southern Blast Furnace Practice and Some of Its Peculiarities—By J. E. Urquhart, September, 1939, Page 72.
Cone Design, Evolution of Worm Gearing Culminating in the—By G. R. Scott, May, 1939, Page 17.
Construction of the New 1000 Ton Blast Furnace at Great Lakes Steel Corporation—By R. M. Hughes and William J. Rees, June, 1939, Page GL-18.
Continuous Rolling Mills, Lubricants for Modern—By L. Ballard, February, 1939, Page 31.
Control, Blast Furnace Skip and Top Direct Current—By H. L. Wilcox, July, 1939, Page 9.
Control for Cold Strip Mills, Gauge—By F. Mohler, December, 1939, Page 44.
Control Equipment, Standardization of 440 Volt A-C. Power and—By D. C. Nelson and J. Russell Powell, April, 1939, Page 50.
Control by Voltage Control, Speed—By R. A. Geuder, July, 1939, Page 34.
Control, Speed Control by Voltage—By R. A. Geuder, July, 1939, Page 34.
Convention and Iron and Steel Exposition of A.I.S.E., Pictorial Review of the 35th Annual—October, 1939, Page 14.
Current Control, Blast Furnace Skip and Top Direct—By H. L. Wilcox, July, 1939, Page 9.

D

Data to Furnace Walls and Roofs, Application of Heat Transfer—By F. A. Faville and George Ellerton, Jr., October, 1939, Page 60.
Design and Lubrication of Gears and Pinions—By Clark Johnson, September, 1939, Page 28.
Design and Operation of a Modern Blast Furnace—By J. C. Barrett, February, 1939, Page 17.
Design and Practice at Fairfield Works, Modern Pit—By E. A. Hawk and M. P. Burns, June, 1939, Page 32.
Design, Evolution of Worm Gearing Culminating in the Cone—By G. R. Scott, May, 1939, Page 17.
Design of Modern Slabbing-Blooming Mills—By Lorenz Iversen, January, 1939, Page 20.
Design of Motor Rooms, Engineering—By C. P. Sullivan, October, 1939, Page 32.
Detroit Section, A. I. & S. E., Report of Educational Program Committee—By L. R. Milburn, March, 1939, Page 26.
Development of Cold Rolling Practice—By A. J. Castle, May, 1939, Page 26.
Developments in Electro-Tinplating of Strip Steel—By D. C. Bakewell, December, 1939, Page 37.
Developments in the Iron and Steel Industry During 1938—By W. H. Burr, January, 1939, Page 68.
Developments in Rolling Flat Steel Products in 1937-38—By Stephen Badlam, January, 1939, Page 28.
Developments in Seamless Tube Manufacture, Review of—By Carl Ohlson, August, 1939, Page 14.
Direct Current Control, Blast Furnace Skip and Top—By H. L. Wilcox, July, 1939, Page 9.
Direct Resistance Treating of Wire, Electric—By J. W. Morrison, December, 1939, Page 28.
Directors, 1939, Newly Elected Officers and—January, 1939, Page 16.
Discussion: Acceleration of Tandem Cold Strip Mills—Presented by F. O. Schnure, H. W. Neblett, A. F. Kenyon, F. E. Harrell, T. R. Rhea, and M. J. Leding, May, 1939, Page 40.
Discussion: By-Product Coke Plant at Hanna Furnace Division, Great Lakes Steel Corporation—Presented by B. M. Stubblefield and H. V. Lauer, June, 1939, Page GL-16.
Discussion: Comments on Southern Blast Furnace Practice and Some of Its Peculiarities—Presented by G. M. Harris, E. A. Hawk, and J. E. Urquhart, September, 1939, Page 80.
Discussion: Construction of the New 1000 Ton Blast Furnace at Great Lakes Steel Corporation—Presented by A. J. Boynton and F. E. Kling, June, 1939, Page GL-30.
Discussion: Design and Lubrication of Gears and Pinions—Presented by F. J. Thomas, L. F. Coffin, F. E. Rosenstiehl, and A. W. Steed, September, 1939, Page 36.
Discussion: Design and Operation of a Modern Blast Furnace—Presented by J. H. Slater, D. P. Cromwell, B. E. Pheneger, A. G. McKee, F. B. Quigley, and W. S. Unger, February, 1939, Page 27.
Discussion: Developments in Electro-Tinplating of Strip Steel—Presented by P. J. Bowron, J. S. Nachtman, W. H. Mandy, J. E. Harrell, R. E. Sturdy, W. W. Garrett, Jr., F. M. Sturgess, D. C. Bakewell, J. R. Cummings, J. C. Cannon, B. E. Melton, H. C. Rodgers, R. L. Dowell, and Nelson M. Jenkins, December, 1939, Page 39.
Discussion: Electrolytic Pickling of Strip Steel—Presented by C. E. Brown, N. J. Ranney, R. M. Bayle, H. W. Hooker, Jr., R. R. Thomas, and H. W. Neblett, April, 1939, Page 16.
Discussion: Engineering Design of Motor Rooms—Presented by F. O. Schnure, N. C. Bye, W. J. Rea, L. F. Coffin, F. C. Schoen, C. P. Sullivan, L. H. Fister, H. H. Angel, and L. A. Umansky, October, 1939, Page 45.
Discussion: Evolution of Worm Gearing Culminating in the Cone Design—Presented by Ernest Wooler and G. R. Scott, May, 1939, Page 24.
Discussion: Frequency Relays and Neo-Time Acceleration—Presented by H. W. Neblett, H. L. Wilcox, A. J. Whitcomb, W. A. Perry, G. E. Adams, and H. R. Middlebrook, May, 1939, Page 72.
Discussion: Gauge Control for Cold Strip Mills—Presented by G. E. Stoltz, F. Mohler, and S. J. Mikina, December, 1939, Page 56.
Discussion: Installing and Operating Grease Lubricating Systems—Presented by T. R. Moxley, A. J. Jennings, R. M. Gordon, and L. W. Deutsch, July, 1939, Page 25.
Discussion: Lightning and Surge Voltage Protection for A-C. Rotating Machines—Presented by A. J. Standing, W. H. Beyerle, G. C. Pfeffer, S. K. Waldorf, Norman R. Cox, L. H. Fister, P. J. Walton, and J. C. Reed, February, 1939, Page 48.
Discussion: Lubricants for Modern Continuous Rolling Mills—Presented by O. L. Maag, H. H. Wood, H. A. Smith, N. M. Aycock, H. R. Gilchrist, F. J. Thomas, R. C. Walter, and L. Ballard, February, 1939, Page 38.
Discussion: Maintenance Aids—Presented by W. H. Beyerle and W. F. Oberhuber, November, 1939, Page 34.
Discussion: Metal Spraying Process in Maintenance Work—Presented by G. J. Walz, J. G. Magrath, E. P. Burns, W. A. Smiley, E. P. O'Neill, J. H. Berryman, L. F. Coffin, and W. J. Rea, December, 1939, Page 25.
Discussion: Modern Pit Design and Practice at Fairfield Works—Presented by H. T. Watts, Emil Vierow, L. R. Kells, M. P. Burns, M. J. Conway, E. A. Hawk, A. J. Fisher, and E. E. Callinan, June, 1939, Page 41.
Discussion: Modern Wire Drawing Practice—Presented by G. E. Stoltz, October, 1939, Page 30.
Discussion: A New Process for Treating Waste from Steel Pickling Plants—Presented by W. M. Edwards, W. W. Hodge, W. E. Steiner, Gene La Schober, Jr., M. J. Rentschler, T. G. Timby, Max Hartenheim, G. S. Warren, R. J. Wean, and W. R. Kerr, January, 1939, Page 57.
Discussion: Performance of Blooming Mill Auxiliary Drives with Ward-Leonard Control—Presented by A. M. MacCutcheon, F. R. Burt, R. H. Ellis, I. N. Tull, W. A. Perry, C. J. Porter, R. G. Widdows, and James Farrington, March, 1939, Page 48.
Discussion: Phenolic Plastic Applications in the Steel Industry—Presented by D. G. Holt, H. F. Horne, A. G. Delany, H. C. Kaeff, M. G. Crosthwait, J. E. Harrell, W. W. Garrett, Jr., and R. R. Thomas, September, 1939, Page 69.
Discussion: Pickling of Strip Steel from the Metallurgical Point of View—Presented by C. L. McGranahan and H. P. Munger, February, 1939, Page 67.
Discussion: Planned Maintenance and the Maintenance Budget—Presented by L. F. Coffin, T. E. Hughes, James Farrington, and G. R. Carroll, April, 1939, Page 48.
Discussion: Protection of Branch Circuits for Auxiliary Motors—Presented by Wray Dudley, G. A. Caldwell, W. E. Winterhalter, L. F. Worden, T. S. Towle, and William Deans, June, 1939, Page 25.
Discussion: Recent Advances Toward Lightning Proof Transmission Lines—Presented by A. J. Standing, L. F. Coffin, R. M. Fuller, G. H. Schaeffer, W. H. Beyerle, G. W. Spaulding, L. H. Fister, H. N. Ekvall, and S. K. Waldorf, February, 1939, Page 54.
Discussion: Relay Protective Methods for Steel Mill Service—Presented by L. A. Umansky, J. B. Looney, F. O. Schnure, W. A. Perry, and H. A. Travers, November, 1939, Page 42.
Discussion: Standardization of 440 Volt A-C Power and Control Equipment—Presented by G. A. Caldwell, G. E. Whitaker, D. C. Nelson, E. C. Marshall, F. O. Schnure, I. N. Tull, F. Mohler, Wray Dudley, and H. L. Wilcox, April, 1939, Page 54.
Discussion: Steel Plant Fuel Accounting—Presented by F. E. Leahy, Harry Dobrin, A. J. Fisher, G. M. Coughlin, M. J. Conway, E. T. W. Bailey, and H. V. Flagg, April, 1939, Page 28.
Discussion: Symposium—Heating Rates of Steel for Various Operations—Presented by L. F. Coffin, A. J. Fisher, M. J. Conway, W. Paul Gerhart, G. B. McMeans, M. J. Bradley, Louis Moses, and T. A. Lewis, March, 1939, Page 21.
Discussion: A Tentative Standard for Fits and Finishes in Maintenance Shops—Presented by A. T. Halstead, F. C. Schoen, G. C. Pfeffer, W. J. Rea, L. F. Coffin, and L. J. Gould, October, 1939, Page 59.
Discussion: Trends in Insulation Practice—Presented by F. O. Schnure, L. H. Fister, R. H. Turner, G. O. Van Artsdalen, L. F. Coffin, H. J. Stewart, Louis Nichols, Randall Hagner, D. M. Petty, and C. Lynn, August, 1939, Page 52.

Discussion: Types of Lubricants Essential to Steel Mills—Presented by T. R. Moxley, W. H. Mandy, F. L. Gray, and W. E. Hamilton, August, 1939, Page 28.
District Section Chairmen, 1939-1940, A.I.S.E.—October, 1939, Page 70.
Drawing Practice, Modern Wire—By J. J. Phifer, October, 1939, Page 26.

E

Educational Committee Report, A.I.S.E.—By H. G. R. Bennett, November, 1939, Page 35.
Educational Program Committee, Detroit Section, A. I. & S. E., Report of—By L. R. Milburn, March, 1939, Page 26.
Efficiency of the Blast Furnace Process—By J. B. Austin, April, 1939, Page 31.
80-inch Continuous Hot and Cold Strip Mill—Irvin Works, Carnegie-Illinois Steel Corp.—September, 1939, Page C-I 1.
Electric Direct Resistance Treating of Wire—By J. W. Morrison, December, 1939, Page 28.
Electrolytic Pickling of Strip Steel—By H. W. Neblett, April, 1939, Page 12.
Electro-Tinplating of Strip Steel, Developments in—By D. C. Bakewell, December, 1939, Page 37.
Engineering Design of Motor Rooms—By C. P. Sullivan, October, 1939, Page 32.
Equipment, Application of Anti-Friction Bearings in Tube Mill—By S. M. Weckstein, August, 1939, Page 30.
Evolution of Worm Gearing Culminating in the Cone Design—By G. R. Scott, May, 1939, Page 17.
Exposition of A.I.S.E., Pictorial Review of the 35th Annual Convention and Iron and Steel—October, 1939, Page 14.

F

Fairfield Works, Modern Pit Design and Practice at—By E. A. Hawk and M. P. Burns, June, 1939, Page 32.
Finishes in Maintenance Shops, A Tentative Standard for Fits and—By L. J. Gould, October, 1939, Page 48.
First Wide Strip Mill in United Kingdom, Richard Thomas and Company, Ltd., Installs—By T. J. Ess and J. D. Kelly, July, 1939, Page RT-1.
Fits and Finishes in Maintenance Shops, A Tentative Standard for—By L. J. Gould, October, 1939, Page 48.
Flue Coke Ovens, Rehabilitation of a Battery of Vertical—By E. R. Merrill, July, 1939, Page 27.
440 Volt A-C. Power and Control Equipment, Standardization of—By D. C. Nelson and J. Russell Powell, April, 1939, Page 50.
